

# QUALIFICATIONS PACK - OCCUPATIONAL STANDARDS FOR MEDIA AND ENTERTAINMENT INDUSTRY

# What are Occupational Standards(OS)?

- Solution OS describe what individuals need to do, know and understand in order to carry out a particular job role or function
- OS are performance standards that individuals must achieve when carrying out functions in the workplace, together with specifications of the underpinning knowledge and understanding

#### Introduction

#### **Qualifications Pack-Modeller**

**SECTOR: MEDIA AND ENTERTAINMENT** 

**SUB-SECTOR:** Animation, Gaming

**OCCUPATION:** Asset Creation

**REFERENCE ID:** MES/ Q 2501

**ALIGNED TO: NCO-2004/NIL** 

Modeller in the Media & Entertainment Industry is also known as a CG Modeller

**Brief Job Description:** Individuals at this job are responsible for creating computer generated models (characters, machines, props, objects etc.) for animation under close supervision of a senior.

**Personal Attributes:** This job requires the individual to create various types of models using modelling software and tools such as Maya, 3D Studio Max etc. The individual must also have a good understanding of the human anatomy, skeleton structure, joints, facial muscles, expressions etc. The individual must be well-versed with the principles and techniques of 3D modelling and animation.

Job Details

Qualifications Pack Code	MES/ Q 2501		
Job Role	Modeller  This job role is applicable in both national and international scenarios		
Credits(NSQF)	TBD	Version number	1.0
Sector	Media and Entertainment	Drafted on	16/07/13
Sub-sector	Animation, Gaming	Last reviewed on	30/07/13
Occupation	Asset Creation	Next review date	29/07/15

Job Role	Modeller	
Role Description	Create computer generated models for animation	
NSQF level	3	
Minimum Educational Qualifications	Class X	
Maximum Educational Qualifications	-	
Training (Suggested but not mandatory)	3D software such as Maya, 3D Studio Max etc.	
Experience	0-1 years Trainee Modeller/ Junior Modeller 1+ years Modeller	
Applicable National Occupational Standards (NOS)	Compulsory:  1. MES / N 2501 (Interpret the script/ brief/ storyboard)  2. MES / N 2502 (Prepare computer generated models)  3. MES / N 2503 (Test computer generated models)  4. MES / N 2508 (Maintain workplace health and safety)  Optional: N.A.	
Performance Criteria	As described in the relevant OS units	

Keywords /Terms	Description		
Budget	Budget is an estimate of the total cost of production that may include a break-up of cost components		
Composition	Composition is the positioning of the character with respect to the background and camera		
Clean-up	Refining the interim/rough animation		
Creative Brief	Creative brief is a document that captures the key questions that serve as		
	a guide for the production including the vision, objective of the project, target audience, timelines, budgets, milestones, stakeholders etc.		
Key Frame	Key Frames are the key poses, usually the start and end poses for a particular animation sequence		
Modelling	Modelling is the process of creating three-dimensional models for animation using a specialised software application.		
Rendering	Rendering is the process of converting three-dimensional models into two-dimensional images with 3D effects		
Rigging	Rigging is the process of adding joints to a static three-dimensional model to aid movement during posing		
Timelines	Timelines is a listing of dates by which the production milestones/stages need to be completed		
Sector	Sector is a conglomeration of different business operations having similar businesses and interests. It may also be defined as a distinct subset of the economy whose components share similar characteristics and interests.		
Sub-sector	Sub-sector is derived from a further breakdown based on the characteristics and interests of its components.		
Vertical	Vertical may exist within a sub-sector representing different domain areas or the client industries served by the industry.		
Occupation	Occupation is a set of job roles, which perform similar/related set of functions in an industry		
Function	Function is an activity necessary for achieving the key purpose of the sector, occupation, or area of work, which can be carried out by a person or a group of persons. Functions are identified through functional analysis and form the basis of OS.		
Sub-functions	Sub-functions are sub-activities essential to fulfill the achieving the objectives of the function.		
Job role	Job role defines a unique set of functions that together form a unique employment opportunity in an organization.		
Occupational Standards (OS)	OS specify the standards of performance an individual must achieve when carrying out a function in the workplace, together with the knowledge and understanding they need to meet that standard consistently. Occupational Standards are applicable both in the Indian and global contexts.		
Performance Criteria	Performance Criteria are statements that together specify the standard of performance required when carrying out a task		
National Occupational Standards (NOS)	NOS are Occupational Standards which apply uniquely in the Indian context.		
Qualifications Pack	Qualifications Pack Code is a unique reference code that identifies a		
Code	qualifications pack.		
Qualifications Pack(QP)	Qualifications Pack comprises the set of OS, together with the educational, training and other criteria required to perform a job role. A Qualifications Pack is assigned a unique qualification pack code.		

#### Qualifications Pack For Modeller

Unit Code	Unit Code is a unique identifier for an Occupational Standard, which is denoted by an 'N'.		
Unit Title	Unit Title gives a clear overall statement about what the incumbent should be able to do.		
Description	Description gives a short summary of the unit content. This would be helpful to anyone searching on a database to verify that this is the appropriate OS they are looking for.		
Scope	Scope is the set of statements specifying the range of variables that an individual may have to deal with in carrying out the function which have a critical impact on the quality of performance required.		
Knowledge and Understanding	Knowledge and Understanding are statements which together specify the technical, generic, professional and organizational specific knowledge that an individual needs in order to perform to the required standard.		
Organizational Context	Organizational Context includes the way the organization is structured and how it operates, including the extent of operative knowledge managers have of their relevant areas of responsibility.		
Technical Knowledge  Technical Knowledge is the specific knowledge needed to accomp specific designated responsibilities.			
Core Skills/Generic Skills	Core Skills or Generic Skills are a group of skills that are key to learning and working in today's world. These skills are typically needed in any work environment. In the context of the OS, these include communication related skills that are applicable to most job roles.

## **Overview**

This OS unit is about interpreting the script/ brief/ storyboard for the animation process

# National Occupational Standards

MES/ N 2501

#### Interpret the script/ brief/ storyboard

Unit Code	MES/ N 2501
Unit Title (Task)	Interpret the script/ brief/ storyboard
Description	This OS unit is about interpreting the script/ brief/ storyboard for the animation process
Scope	This unit/task covers the following:  • Interpret the script/ brief/ storyboard correctly
Performance Criteria	(PC) w.r.t. the Scope
Element	Performance Criteria
Interpretation of script/ brief/ storyboard	To be competent, the user/individual on the job must be able to:  PC1. Understand the script, brief and storyboard from the Art Director and character designers  PC2. Understand the design brief in context of his/her job (appearance, complexion, dressing, moods, personalities, expressions etc.)  PC3. Understand the requirements (number, types, duplicates etc.)  PC4. Understand the specifications (dimensions, operating parameters etc.)  PC5. Understand the technical needs of the project relevant to his/ her job role (Television, Film, Gaming, Internet, DVD etc.)  PC6. Be aware and responsible of his/her pole in the pre-production, production and post-production process
Knowledge and Unde	rstanding (K)
A. Organizational Context  (Knowledge of the company / organization and its processes)  The user/individual on the job needs to know and understand:  KA1. The creative vision and elements of production relevant to his/her job KA2. The project pipeline/schedule and timelines relevant to their work KA3. The intended purpose/ end-use of the models that need to be created to be cre	
B. Technical Knowledge	The user/individual on the job needs to know and understand: KB1. Principles of animation KB2. Human anatomy, skeleton structure, joints, facial muscles etc. KB3. Human mannerisms, emotions, behavior, facial expressions etc. KB4. Techniques and workflow KB5. Drawing and illustration techniques KB6. How to prepare an output that is consistent with the creative look of the production and in accordance to the script and design brief KB7. The sources for research and reference material KB8. Applicable copyright norms and intellectual property rights KB9. Applicable health and safety guidelines

### Interpret the script/ brief/ storyboard

Ski	Skills (S) (Optional)		
A.	Core Skills/	Writing Skills	
	Generic Skills	The user/individual on the job needs to know and understand how to:  SA1. Document notes while understanding the brief, requirements and specifications from the art director and character designers to refer to during the production process	
		Reading Skills	
		The user/individual on the job needs to know and understand how to:  SA2. Read and understand the design brief and character pack  SA3. Research links, videos, artwork etc. that can be used as references	
		Oral Communication (Listening and Speaking skills)	
		The user/individual on the job needs to know and understand how to:  SA4. Understand the design brief and requirements from the Art Director and character designers	
В.	Professional Skills	Plan and Organize	
		The user/individual on the job needs to know and understand how to:  SB1. Breakup the tasks required and estimate the time required for each task, so as to manage own work in assigned time schedule	
		Problem Solving	
		The user/individual on the job needs to kr and understand how to:  SB2. Identify any creative problems that may arise during the production and work back with the art director and character designers to find suitable solutions to address them  SB3. Handle technical issues such as pipeline concerns, optimizing efficiency of assets and asset integration in collaboration with peers and under supervision of the art director	

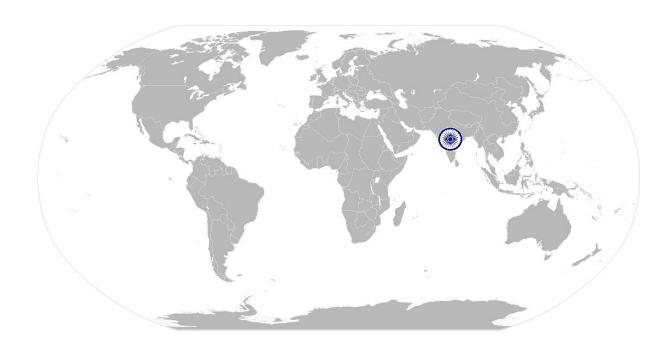

#### Interpret the script/ brief/ storyboard

## **Overview**

This unit is about creating computer generated models for the animation process

#### Prepare computer generated models

Unit Codo	NEG ( N 0700
Unit Code	MES/ N 2502
Unit Title (Task)	Prepare computer generated models
Description	This OS unit is about creating computer generated models for the animation process
Scope	Preparation of computer generated 3D models, including characters machines, sets and props, game modeling, objects, locations/ background elements such as environment, architecture, landscapes, interiors and blend shapes
Performance Criteria (I	PC) w.r.t. the Scope
Element	Performance Criteria
Preparation of computer generated 3D models	To be competent, the user/individual on the job must be able to: PC1. Prepare digital models according to the design brief, requirements, specifications and technical needs of the project specified by the art director/character designers PC2. Create prototypes/pilots for testing PC3. Understand the final display medium and adapt / suggest the model for its polycounts, mesh complexity, movement capability etc. under supervision of the art director and character designers PC4. Ensure that the models will be able-to perform properly once animated, are uniform and consistent and are delivered in appropriate formats that can be used by others
Knowledge and Unders	standing (K)
B. Organizational Context (Knowledge of the company / organization and its processes)	The user/individual on the job needs to know and understand:  KA1. The creative vision and elements of production relevant to his/her job role  KA2. The pipeline/schedule and timelines relevant to their work  KA3. The intended purpose/ end-use of the models that need to be created
B. Technical Knowledge	The user/individual on the job needs to know and understand:  KB1. Principles of 3D modeling and animation including concepts like polygons, nurbs, and sub surface modeling etc.  KB2. Human anatomy, skeleton structure, joints, facial muscles etc.  KB3. Human mannerisms, emotions, behavior, facial expressions etc.  KB4. Basics of rigging to help build models with the minimum necessary spline, nurbs and polygons  KB5. Techniques and workflow of UV mapping  KB6. Principles of engineering  KB7. Physics of motion, resistance and volume  KB8. Form, scale and proportion of various models  KB9. The techniques of sculpting (added advantage)  KB10. Drawing and illustration techniques  KB11. How to create various types of models (organic, non-organic, simple,

#### Prepare computer generated models

	ac man law)
	complex)  KB12. How to use modelling software and tools such as Maya, 3D Studio Max, Blender, Mud-Box, Zbrush, Mari etc.  KB13. How to design and develop models consistent with the creative look of the
	production and in accordance to the script and design brief KB14. How to build models with the necessary detailing and as per the camera distance
	KB15. The sources for research and reference material KB16. How to design models to suit the final use. E.g. a model created for feature films is different from model created for television series and it is further different from model created for a game or e-Learning module
	KB17. How to Test models (through the basic phonemes test, basic expression test, simulation tests, grayscale turnarounds) to ensure that they meet the design specification and production requirements
	KB18. How to test characters, props and environments to ensure they appear correctly from all required camera positions and angles KB19. How to optimise mesh as per production requirements
	KB20. Applicable copyright norms and intellectual property rights  KB21. Applicable health and safety guidelines
Skills (S) ( <u>Optional</u> )	
C. Core Skills/	Writing Skills
Generic Skills	The user/individual on the job needs to know and understand how to:
	SA1. Document notes /draw illustrations to assist during the modelling process
	Reading Skills
	The user/individual on the job needs to know and understand how to:
	SA2. Read and understand the design brief and character pack
	SA3. Research links, videos, artwork etc. that can be used as references during the modelling process
	Oral Communication (Listening and Speaking skills)
	The user/individual on the job needs to know and understand how to:
	SA4. Understand the design brief and requirements from the Art Director and character designers
	SA5. Present the final character models to the Art Director and solicit feedback
D. Professional Skills	Plan and Organize
	The user/individual on the job needs to know and understand how to:
	SB1. Breakup the tasks required and estimate the time required for each task, so as
	to manage own work in assigned time schedule
	Problem Solving
	The user/individual on the job needs to know and understand how to:
	SB2. Identify any creative problems that may arise during the production and work back with the art director and character designers to find suitable solutions to address them

#### Qualifications Pack For Modeller

The following acronyms/codes have been used in the nomenclature above:

Sub-sector	Range of Occupation numbers

Sequence	Description	Example
Three letters	Media and Entertainment	MES
Slash	/	/
Next letter	Whether <b>Q</b> P or <b>N</b> OS	Q
Next two numbers	Asset Creation	25
Next two numbers	QP number	01

#### **CRITERIA FOR ASSESSMENT OF -Asset Creation**

Job Role/Qualification Pack	Modeller
QP- ID	MES Q 2501

	NOS	NOS NAME	Weightage
1	MES / N 2501	Interpret the script/ brief/ storyboard	25%
2	MES / N 2502	Prepare computer generated models	30%
3	MES / N 2503	Test computer generated models)	35%
4	MES / N 2508	Maintain workplace health and safety	10%
			100%

#### **Guidelines for Assessment:**

- 1. Criteria for assessment for each Qualification Pack will be created by the Sector Skill Council. Each Performance Criteria (PC) will be assigned marks proportional to its importance in NOS. SSC will also lay down proportion of marks for Theory and Skills Practical for each PC.
- 2. The assessment for the theory & Practical part will be based on knowledge bank of questions created by the AA and approved by SSC
- 3. Individual assessment agencies will create unique question papers for theory part for each candidate at each examination/training center (as per assessment criteria below)
- 4. Individual assessment agencies will create unique evaulations for skill practical for every student at each examination/training center based on this criteria
- 5. To pass the Qualification Pack, every trainee should score a minimum of 70% cumulatively (Theory and Practical)
